

## Marcela de Pinho Touriño

### **CALM AND ASSERTIVENESS TO REACH HIGH EFFICIENCY**

A math lover, Marcela always knew that numbers and strategy would always be part of her life.

Her passion for learning languages led her to learn Portuguese, English, German and Spanish.

In 2014, when she graduated in Industrial Engineering at PUC-RJ in Brazil, she began working at Deloitte Touche Tohmatsu, where she was exposed to several sectors and areas. In four years, Marcela was able to climb four levels within the company and became a senior consultant, working as project leader of one of the most important energy companies in Brazil, where she helped to implement the development of the Compliance Department.

As a consultant, she has worked on several different projects, mainly in internal audit, risk management and compliance, in large energy and mining companies, helping them to find ways to improve their processes and activities.

When faced with a problem, Marcela always tries to have a positive approach, trying to reach a solution in a most calm and efficient way as possible. The need to meet tight deadlines help her develop assertiveness.

After her experience at Deloitte Touche Tohmatsu, Marcela decided to challenge herself and continued to pursue her dreams by applying to The Magellan MBA. As a goal-oriented person, Marcela believes that the MBA is not just an opportunity to acquire new skills and be up to date but also an incentive for growth and personal development.

**Nationality: Spanish, Brazilian**

**Languages: Spanish, Portuguese, English, German**
